

Hello, I am writing in response to the letter I received stating that Air 1 radio may be threatened by the new LPFM stations. I am a daily listener to Air 1 and have no other local or nationally broadcast station that meets the needs that Air 1 does. Air 1 consistently gives me contemporary music with a Christian theme. No other radio station provides contemporary Christian music. It is very difficult to find any Christian music broadcasting and when I moved to the Phoenix metro area was very excited to learn that I had a radio station to listen to with a positive and Biblical theme. Please do not replace Air 1. Thank you for your time, Genny L. Gaustad
